

AestheticAI: Clinic Presentation

The Intelligent Intake Platform for Modern Aesthetic Practices.

Executive Summary

AestheticAI replaces traditional, static contact forms with an AI-powered consultation engine. It pre-qualifies patients, scores leads based on medical and financial viability, and delivers comprehensive clinical profiles to your team before the first phone call even starts.

Core Value Pillars:

- **Pre-Qualification:** Know the patient's BMI and medical history before calling.
- **AI Analysis:** Automated facial proportion and symmetry scoring.
- **Lead Sorting:** Urgent leads are prioritized so your high-value closers focus on the right people.
- **HIPAA Security:** Bank-level encryption for all Protected Health Information (PHI).
- **White-Label Ready:** Fully branded to your clinic's luxury aesthetic.

1. The Current Challenge: The "Leaky Funnel"

Most clinics suffer from a reactive intake process that wastes administrative time and misses high-intent opportunities.

- **Unstructured Data:** Generic forms only capture a name and "interested in surgery."
- **Coordinator Bottleneck:** Staff spends 15–20 minutes per lead gathering basic history that the patient could have provided themselves.
- **High No-Show Rates:** Without a commitment-building intake process, patients are less invested in their scheduled consultations.
- **PHI Risks:** Staff often resort to insecure texting or emailing of patient photos.

2. Traditional Form vs. Smart Intake

Feature	Traditional Contact Form	AestheticAI Smart Intake
Data Capture	Name & Email only.	Full clinical history & AI-analyzed photos.
Lead Scoring	None — all leads look the same.	Auto-scored (0-100) & Prioritized.
Photo Analysis	None, or unstructured attachments.	Guided capture with facial proportion analysis.
Workload	20 min/call gathering basic info.	Ready-to-call clinical brief.
Commitment	One click — zero investment.	Multi-step process builds patient intent.
Availability	Staff-dependent.	24/7 Automated intake.

3. The Solution: A Guided Patient Journey

AestheticAI transforms the intake into a luxury, mobile-first experience.

1. **Visual Selection:** Patient selects their area of interest from a curated menu.
2. **Adaptive Quiz:** Dynamic branching questions gather relevant medical history.
3. **AI-Guided Photos:** Real-time angle overlays ensure clinic-quality photos.
4. **Consent:** HIPAA-compliant biometric and data consent is captured upfront.
5. **AI Analysis:** Face/Body proportions are analyzed automatically in the background.
6. **Lead Delivery:** Your team receives an "Urgent" alert with a full clinical brief.

4. AI Computer Vision Suite

Every lead arrives with a full clinical picture, significantly reducing the "discovery" phase of the consultation.

- **Golden Ratio Analysis:** Automated measurements of facial thirds, fifths, and nasal width.
- **Symmetry Scoring:** Evaluation of nasal deviation, eye symmetry, and overall harmony.
- **Quality Control:** Fuzzy or misaligned photos are caught by the AI before the patient submits, ensuring your team has usable data.

- **Procedure Recommendation:** The system matches patient anatomy to the procedures your clinic performs.

5. Lead Intelligence & Scoring

AestheticAI doesn't just collect leads; it ranks them so your sales team knows exactly who to call first.

Priority Tiers:

-  **Urgent (80–100):** High budget, immediate timeline, excellent clinical candidate.
-  **High (60–79):** Realistic timeline, strong intent, good anatomical match.
-  **Medium (40–59):** Early research phase, nurture candidate.
-  **Standard (<40):** Informational interest only.

Score Components: Timeline (30%), Budget alignment (25%), AI Harmony Score (20%), Photo Quality (10%), Concern Depth (10%), Referral Source (5%).

6. Coordinator Dashboard Experience

Empower your staff with the tools they need to act like elite concierges.

- **Priority Queue:** The team always starts their day by calling the "Urgent" leads.
- **Immediate Clinical Brief:** View quiz answers, photos, and AI scores in a single, secure page.
- **Magic Link Access:** Secure, passwordless access for clinic staff with a full audit log.
- **CRM Sync:** Mark a lead as "Booked" or "Not a Fit," and the status syncs back to your CRM instantly.

7. Seamless Integration

AestheticAI is designed to sit on top of your existing workflow, not replace it.

- **One-Line Embed:** Add the widget to your current website in minutes.
- **Webhook Delivery:** Auto-sync to Nextech, PatientNow, HubSpot, or Salesforce.
- **Calendar Sync:** Patients can self-schedule consultations within the intake flow.

- **Multi-Location:** Manage separate queues and branding for different clinic locations.

8. Security & HIPAA Compliance

We treat patient data with the highest level of protection allowed by law.

- **Encryption Everywhere:** PHI is encrypted at rest (AES-256) and in transit (TLS 1.3).
- **Secure Photo Access:** Photos are never stored on phones; they are accessed via expiring, signed URLs.
- **Audit Trails:** Every single file view is logged for compliance auditing.
- **BAA Included:** We provide a Business Associate Agreement for every clinic partner.

9. Business Impact & ROI

AestheticAI is a revenue-generating asset that pays for itself by increasing conversion and reducing waste.

- **+35% Lead-to-Consult Conversion:** Higher intent leads book more often.
- **-25% No-Show Rate:** Patients who complete the AI journey are more committed.
- **24/7 Automation:** Capture and qualify leads while your staff is asleep.
- **<30m Response Time:** Enabling your team to call the best leads while they are still on your website.

10. Pricing & Plans

Starter (\$299/mo)

- 1 Procedure Type
- Up to 50 evaluations/month
- AI Photo Analysis
- Priority Queue

Growth (\$699/mo) - *Most Popular*

- **5 Procedure Types**
- Up to 200 evaluations/month
- Full AI Suite + Beauty Roadmap PDF
- Calendar Booking Sync
- Team Access

Pro / White-Label (Custom)

- Unlimited Procedures
- Unlimited Evaluations
- AI Simulation Previews
- Multi-Location Support
- Custom Domain & Branding

11. Conclusion: The Competitive Edge

AestheticAI transforms your clinic from being a reactive service provider to a proactive, tech-forward authority. By providing patients with an elite AI experience, you build trust instantly and ensure your team's time is spent on the leads that actually grow your practice.
